Education

Bachelor of Science in IT	2019
Atmiya Institute of Science & Technology	India
Master of Computer Application	2021
SRM Institute of Science & Technology	India

Projects

➤ **HR Analytics:**

- HR Analytics is about the analyze employee's data and predict about future.
- HR Analytics is designed for HR. It is very helpful to HR to see the future of company and future work performance of the employee.
- Also we added one feature is that it will show the list of employee who will leave the company in near future.
- Everything is work on employee data.
- In this I worked as a Django developer.
- We used HTML, CSS, jquery And Bootstrap for give a better look.
- We used Django framework And Django Administration for database.

➤ **Devicemart:**

- Devicemart is about online selling site for laptops, PCs, Monitors, All computer accessories, etc...
- In this we add a feature like create your own. In this, customer can create a PCs by their requirement and we will assemble it for them.
- We made it easy to use for those customer who is not the technology guy and want to buy a better product. And it will also suggest related products before checkout.
- Also we made Admin Module, Customer Module.
- In this project we used HTML, CSS, jquery And Bootstrap in front-end, PHP for back-end And MySQL for database.
